

Top Tip for Communication at Home

Family photo album

Make a simple photo album for your child.

Use large photos of your child and close family members or friends. Use one photo per page.

Share this with your child as often as you can.

Encourage your child to point to the picture. You say who it is.

Encourage your child to turn the pages of the book.

Your child may show enjoyment and may even try to copy the words. Make sure you keep it simple and fun.

You could also use favourite cartoon or TV characters!
